

## Features & Benefits

Features	Benefits
Translucent (i.e. semi-transparent) finish.	Highlights the natural features of the timber.
A moisture vapour permeable finish.	Allows the controlled passage of moisture, thus extending the lifespan of the coating and substrate.
Contains a mould inhibitor and fungicides.	Prevents disfiguration of the finish due to mould growth, surface fungi and blue stain.
Contains a resin to fix the active ingredients in the coating.	The finish is water repellent, with no risk of active ingredients being leached out.
Thixotropic and high viscosity formulation.	Reduces the risks of sagging and offers increased durability, and greater dimensional stability to windows and doors.

## GORI 88

**Product Range**  
 7802 Pine  
 7804 Teak
